- (2) The contractor must supply this information to the Office of Federal Contract Compliance Programs upon request.
- (d) Adverse impact evaluations. When evaluating whether a contractor has maintained information on impact and conducted an adverse impact analysis under part 60-3 with respect to Internet hiring procedures, OFCCP will require only those records relating to the analyses of the impact of employee selection procedures on Internet Applicants, as defined in 41 CFR 60-1.3, and those records relating to the analyses of the impact of employment tests that are used as employee selection procedures, without regard to whether the tests were administered to Internet Applicants, as defined in 41 CFR 60-1.3.
- (e) Failure to preserve records. Failure to preserve complete and accurate records as required by paragraphs (a) through (c) of this section constitutes noncompliance with the contractor's obligations under the Executive Order and this part. Where the contractor has destroyed or failed to preserve records as required by this section, there may be a presumption that the information destroyed or not preserved would have been unfavorable to the contractor: Provided, That this presumption shall not apply where the contractor shows that the destruction or failure to preserve records results from the circumstances that are outside of the contractor's control.

Subpart B—General Enforcement; Compliance Review and Complaint Procedure

§ 60-1.20 Compliance evaluations.

(a) OFCCP may conduct compliance evaluations to determine if the contractor maintains nondiscriminatory hiring and employment practices and is taking affirmative action to ensure that applicants are employed and that employees are placed, trained, upgraded, promoted, and otherwise treated during employment without regard to race, color, religion, sex, or national origin. A compliance evaluation may consist of any one or any combination

- of the following investigative procedures:
- (1) Compliance review. A comprehensive analysis and evaluation of the hiring and employment practices of the contractor, the written affirmative action program, and the results of the affirmative action efforts undertaken by the contractor. A compliance review may proceed in three stages:
- (i) A desk audit of the written AAP and supporting documentation to determine whether all elements required by the regulations in this part are included, whether the AAP meets agency standards of reasonableness, and whether the AAP and supporting documentation satisfy agency standards of acceptability. The desk audit is conducted at OFCCP offices, except in the case of preaward reviews. In a preaward review, the desk audit normally is conducted at the contractor's establishment.
- (ii) An on-site review, conducted at the contractor's establishment to investigate unresolved problem areas identified in the AAP and supporting documentation during the desk audit, to verify that the contractor has implemented the AAP and has complied with those regulatory obligations not required to be included in the AAP, and to examine potential instances or issues of discrimination. An on-site review normally will involve an examination of the contractor's personnel and employment policies, inspection and copying of documents related to employment actions, and interviews with employees, supervisors, managers, hiring officials; and
- (iii) Where necessary, an off-site analysis of information supplied by the contractor or otherwise gathered during or pursuant to the on-site review.
- (2) Off-site review of records. An analysis and evaluation of the AAP (or any part thereof) and supporting documentation, and other documents related to the contractor's personnel policies and employment actions that may be relevant to a determination of whether the contractor has complied with the requirements of the Executive Order and regulations;
- (3) Compliance check. A determination of whether the contractor has maintained records consistent with §60–1.12;

§ 60-1.20

at the contractor's option the documents may be provided either on-site or off-site; or

- (4) Focused review. An on-site review restricted to one or more components of the contractor's organization or one or more aspects of the contractor's employment practices.
- (b) Where deficiencies are found to exist, reasonable efforts shall be made to secure compliance through conciliation and persuasion. Before the contractor can be found to be in compliance with the order, it must make a specific commitment, in writing, to correct any such deficiencies. The commitment must include the precise action to be taken and dates for completion. The time period allotted shall be no longer than the minimum period necessary to effect such changes. Upon approval of the commitment, the contractor may be considered in compliance, on condition that the commitments are faithfully kept. The contractor shall be notified that making such commitments does not preclude future determinations of noncompliance based on a finding that the commitments are not sufficient to achieve compliance.
 - (c) [Reserved]
- (d) Preaward compliance evaluations. Each agency shall include in the invitation for bids for each formally advertised nonconstruction contract or state at the outset of negotiations for each negotiated contract, that if the award, when let, should total \$10 million or more, the prospective contractor and its known first-tier subcontractors with subcontracts of \$10 million or more shall be subject to a compliance evaluation before the award of the contract unless OFCCP has conducted an evaluation and found them to be in compliance with the Order within the preceding 24 months. The awarding agency will notify OFCCP and request appropriate action and findings in accordance with this subsection. Within 15 days of the notice OFCCP will inform the awarding agency of its intention to conduct a preaward compliance evaluation. If OFCCP does not inform the awarding agency within that period of its intention to conduct a preaward compliance evaluation, clearance shall be presumed and the awarding agency

is authorized to proceed with the award. If OFCCP informs the awarding agency of its intention to conduct a preaward compliance evaluation, OFCCP shall be allowed an additional 20 days after the date that it so informs the awarding agency to provide its conclusions. If OFCCP does not provide the awarding agency with its conclusions within that period, clearance shall be presumed and the awarding agency is authorized to proceed with the award.

- (e) Submission of Documents; Standard Affirmative Action Formats. Each prime contractor or subcontractor with 50 or more employees and a contract of \$50,000 or more is required to develop a written affirmative action program for each of its establishments (§60-1.40). If a contractor fails to submit an affirmative action program and supporting documents, including the workforce analysis, within 30 days of a request, the enforcement procedures specified in §60-1.26(b) shall be applicable. Contractors may reach agreement with OFCCP on nationwide AAP formats or on frequency of updating statistics.
- (f) Confidentiality and relevancy of information. If the contractor is concerned with the confidentiality of such information as lists of employee names, reasons for termination, or pay data, then alphabetic or numeric coding or the use of an index of pay and pay ranges, consistent with the ranges assigned to each job group, are acceptable for purposes of the compliance evaluation. The contractor must provide full access to all relevant data onsite as required by §60–1.43. Where necessary, the compliance officer may take information made available during the on-site evaluation off-site for further analysis. An off-site analysis should be conducted where issues have arisen concerning deficiencies or an apparent violation which, in the judgment of the compliance officer, should be more thoroughly analyzed off-site before a determination of compliance is made. The contractor must provide all data determined by the compliance officer to be necessary for off-site analysis. Such data may only be coded if the contractor makes the key to the

code available to the compliance officer. If the contractor believes that particular information which is to be taken off-site is not relevant to compliance with the Executive Order, the contractor may request a ruling by the OFCCP District/Area Director. The OFCCP District/Area Director shall issue a ruling within 10 days. The contractor may appeal that ruling to the OFCCP Regional Director within 10 days. The Regional Director shall issue a final ruling within 10 days. Pending a final ruling, the information in question must be made available to the compliance officer off-site, but shall be considered a part of the investigatory file and subject to the provisions of paragraph (g) of this section. The agency shall take all necessary precautions to safeguard the confidentiality of such information until a final determination is made. Such information may not be copied by OFCCP and access to the information shall be limited to the compliance officer and personnel involved in the determination of relevancy. Data determined to be not relevant to the investigation will be returned to the contractor immediately.

(g) Public Access to Information. OFCCP will treat information obtained in the compliance evaluation as confidential to the maximum extent the information is exempt from public disclosure under the Freedom of Information Act, 5 U.S.C. 552. It is the practice of OFCCP not to release data where the contractor is still in business, and the contractor indicates, and through the Department of Labor review process it is determined, that the data are confidential and sensitive and that the release of data would subject the contractor to commercial harm.
